

Note: FSNAU EW-EA database and dashboard (<http://dashboard.fsnau.org>) was developed through a consultative process and uses data on a diverse range of indicators (climate, market, nutrition, health and population displacement) that have been assigned individual thresholds for Normal, Alert and Alarm.

The EW-EA time series chart shows trends in the number of Early Warning indicators that are in 'Alarm' phase month-on-month from 2015 to 2020.

Data Source: FSNAU/FEWS NET for market data; USGS/JRC for rainfall and NDVI; Nutrition Cluster for data on admissions, WHO and Health Cluster for data on health indicators and UNHCR for population movement.
